Merlin® Security +2.0 Accessories

Premium+ Remote

Boasting outstanding range, unique code generation with each activation and an LED light, the Premium+ Remote is compatible with both Merlin Security+ and Security+ 2.0 garage door openers giving you the ability to code both codes on the same remote.

Model: E960M

Car Visor Remote

Experience the convenience of a versatile spare remote. Operate up to three doors or gates with one remote that can be fitted to a car visor or in the house. Available in 1 or 3 button versions, visor clip included.

Model: E943M (3 Button)

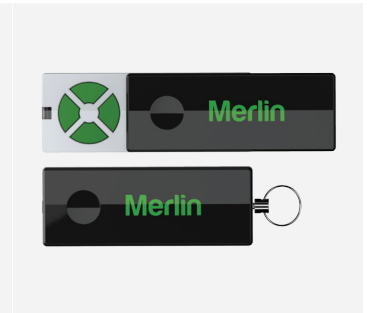

Model: E940M (1 Button)

3 Button Key Ring Remote

Key ring remote transmitters are small and convenient with the ability to operate up to three doors or gates from the one unit. A must have for every set of keys in the house.

Model: E945M

4 Button Slider Remote

Key ring remote transmitters are small and convenient with the ability to operate up to four doors or gates from the one unit. Slide cover protects buttons from accidentally being pressed. Simply slide back to expose buttons.

Model: E950M

Wireless Wall Control

A popular option for homes with internal access to the garage. The remote wall button can be placed in a suitable location in your home or garage. There is no wiring and it can open up to two garage doors.

Model: E138M (rectangle button)

Model: E128M (circle button)

Wireless Keypad

Enables you to open your garage door without keys when you enter a 4 digit security code. Has the option for temporary codes that last for as many hours or door openings you select.

Model: E840M

Battery Back Up

The E475M-12V allows for full operation or your garage door in the event of a power outage.

Model: E475M-12V

Suits Models: SilentDrive and Overdrive

Universal Receiver (1,000 users)

The Star1000EVO is a high capacity, single channel access control receiver for domestic and commercial door operators and other devices. Allows for up to 1,000 users and has easy programming via a keypad and LCD screen.

Model: Star1000EVO

Receiver

Convert your existing garage door opener to the latest Security +2.0 technology by using the E8003 Universal Receiver to virtually eliminate interference from other devices. 3 channels are available and up to 90 users.

Model: E8003

Model: E8003TX2 (kit with 2 remotes)

Protector System™ Safety IR Beams

The IR System uses an invisible beam across the garage door. If the beam is obstructed or broken the door will not close and helps prevent an injury or damage to a vehicle, person or pet.

Model: 771ANZ

Model: 772ANZ

Model: 774ANZ

Key Operated Manual Release

Designed for garages that don't have a second access point. The key operated lock enables you to disengage the operator from the door from outside the garage when there is no power or a remote is not available.

Model: DMK1 - Roller Door

Model: CM1702 - Whisper Drive

Model: E1702M - Tiltmaster & PowerAce

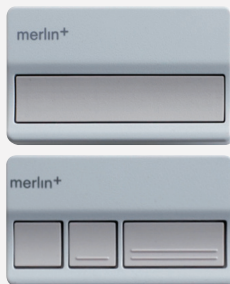

Merlin® Security + Accessories

Premium+ Remote

Boasting outstanding range, unique code generation with each activation and an LED light, the Premium+ Remote is compatible with both Merlin Security+ and Security+ 2.0 garage door openers giving you the ability to code both codes on the same remote.

Model: E960M

Car Visor Remote

Standard one channel remote control with rolling code technology. Directional visor clip included. Powered by two long-life 3V lithium batteries.

Model: C940 (1 button)

Model: C943 (3 button)

3 Button Key Ring Remote

Controls up to three different doors or gates. Suitable for pocket, or key chain.

Model: C945

Wireless Keypad (AM)

Enables you to open your garage door without keys when you enter a 4 digit security code. Has the option for temporary codes that last for as many hours or door openings you select.

Model (AM): C840

Wireless Wall Control

Equipped with rolling code technology for remote operation in the garage or in the home.

Model (AM): CM128

Battery Back Up

Ensures the garage door remains operational in the event of a power blackout.

Model: CM475

Suits models: MR600, MR800, MJ3800

Merlin® Legacy Accessories

Merlin 40.685 Mhz handset transmitter (Merlin Legacy RF)

Suitable for Merlin garage door and gate openers sold between 1996 and 2001

Model: M802

Suits models: M230T, M430R, P230T & P430R

2 or 4 Button Remote

Controls up to four different doors or gates. Includes a clip-on system for dashboard mounting.

Model (FM): M832

Model (FM): M842

Model (FM): M844

STYLE. SECURITY. RANGE.

What people say about Merlin®

"We were always under the impression that to automate our garage door, we would need to purchase a whole new door, but Merlin were able to attach the opener to our existing garage door for a fraction of the price."

Amber Clarke, Acacia Gardens, NSW

"Merlin sent a professional installer to come to the house and within no time at all, our existing garage door was equipped with the new automatic opener and we instantly reaped the benefits of being able to automate the garage door with the push of a button."

Ariel Dalida, Inala, QLD

"Can you imagine having a TV without a remote control? That's how it felt for us with our manual garage door and now that the garage door has been automated, we honestly don't know how we ever lived without it."

Fiona Wright, Medowie, NSW
